Pathways to Prosperity

- Calls for national effort to develop a broader vision of pathways in which students can be successful ... rather than focusing on the pathway of attending and graduating with a four-year degree
- Ask nation's employers to play expanded role
- New social compact between youth and society

WORKSHEET B: Understanding the Issues and Challenges

The following questions may help you and your partners clarify and enhance understanding of the issues and challenges. You may choose to add other questions that are relevant to your partnership.

1. Describe the accountability measures at your educational level that present the greatest challenges.

2. In your view, what is the most significant challenge students face as they progress along their educational and career pathway:

a. at the secondary level?	b. at the postsecondary level?	c. entering the workforce?

3. What role can business and industry partners play in changing these conditions?

Sample of Ground Rules

Attend all meetings:

- Arrive on time.
- Be present for the entire scheduled meeting time.

Actively engage in discussions:

- Avoid distracting side conversations.
- Limit informal post-meeting critiques.

Stay focused:

- Follow the agenda.
- Return promptly from breaks.

Show respect for the opinions of others:

- Everyone deserves an equal voice.
- Give credit to others when it is due them.

Ask questions and respect the questions of others:

- If you wonder, ask.
- Support others' learning.

Lessons Learned

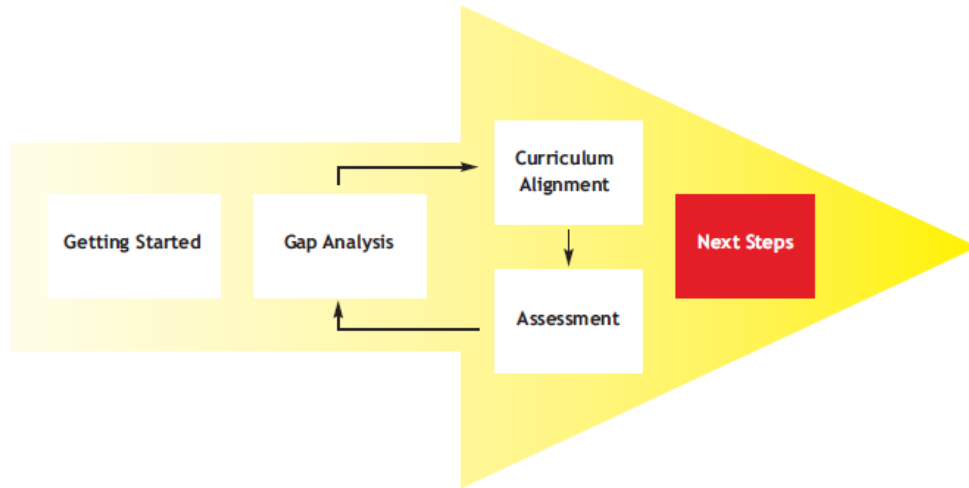

- » Systems do things differently
- » Going to college can be confusing
- » Program Pathways are simply roadmaps...they are not written in stone and individual paths will vary
- » Building and maintaining partnerships facilitate relationships, sustainability and create new ways of doing business!
