

# MOVING TO FLEXIBLE DELIVERIES

- What is the length of time I need to remain flexible in my instruction?
- What are the unique challenges typical to my students or course sequence?

- What are the essential competencies for your course?
- Which competencies can be addressed more readily in a flexible mode?

- What content would students typically be exposed to?
- What activities can be completed outside of the classroom
- What materials will my students need access?

- How would students typically show they've gained the necessary knowledge or skills?
- How might faculty give students feedback differently to continue their growth?

## LOW TECHNOLOGY

Supplemental books & articles  
Share web-links via email  
Communicate via email

Place files on Blackboard  
Conference call discussions/lecture  
Mail or allow for pick-up

## HIGH TECHNOLOGY

Blackboard assignments  
Blackboard announcements  
Post lecture slides in Blackboard

Blackboard discussions/quizzes  
Record Mediasite videos  
Use WebEx to host live webinars
