# Components of CCTC

---

## Career Ready Practices

- 12 practices with suggested indicators
- Positioned to be applied across the entire continuum of instruction
- Modeled after Common Core's Standards for Mathematical Practice

## Career Cluster- & Career Pathway- Level Content Standards

- Expectations within Career Cluster and Career Pathways that frame a Program of Study
- Based on Validated Knowledge and Skills Statements
- Used to align expectations across states

# What did we learn?

---

- CTE is very diverse
- Not a shared definition of what is a standard
- Majority of states have the authority to adopt both secondary and postsecondary standards BUT.....
- Most only exercise the authority at the secondary level.

# What did we learn?

---

- 46 states and three territories have state-approved secondary CTE standards
- 13 states and two territories have state-approved CTE standards at the post secondary level
- Two states and one territory have shared standards between secondary and postsecondary CTE.
- Most states have course-level standards that are largely occupationally or job-specific.

# What did we learn?

---

- Nearly all states provide guidance on CTE dual enrollment and articulation
- ½ of states have guidance for credit transfer agreements
- 1/3 states have some statewide credit transfer programs
- 9 states have full statewide credit transfer programs for CTE

# What did we learn?

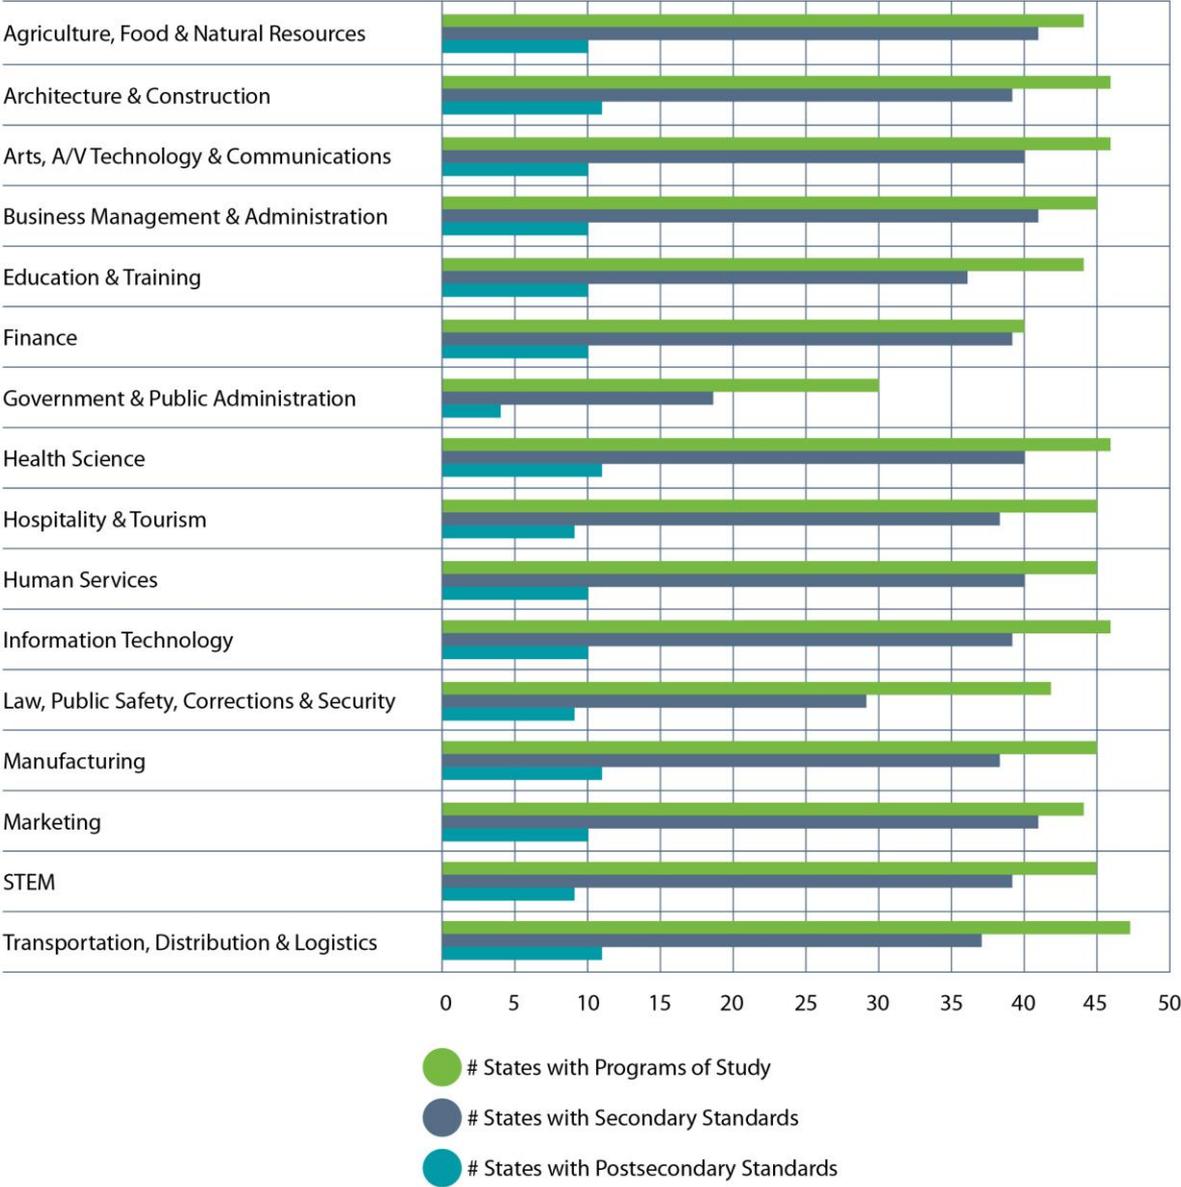

---

- Good alignment with most of the Career Ready Practices
- Work still to be done to integrate
  - Demonstrate creativity and innovation
  - Employ valid and reliable research strategies

# Looking ahead

- Fill the postsecondary CTE standards gap
- Implementation of standards with fidelity
- Continued progress on programs of study
- Implementation of the CCTC
