Articulation Agreement

Between

Wichita Area Technical College (WATC) and

USD 265 Goddard Public Schools

PURPOSE

This Agreement, by and between USD 265 Goddard Public Schools and Wichita Area Technical College (WATC) is made to provide students enrolling in Police Science (I-PSS Pathway) the option to earn a Technical Certificate or Associate of Applied Science, etc. through WATC. It is the intent of this cooperative effort to provide the student with a non-duplicative program of study. The benefit of this agreement is to provide a smooth transition for secondary students who wish to continue their education after graduation in a post-secondary transfer or Career & Technical Education program.

DURATION OF THE AGREEMENT

Parties agree to evaluate this program in the context of student benefits, program efficiency, and effectiveness. This transfer agreement shall commence August 2017 and continue on a bi-yearly basis. This agreement is subject to change or cancellation by the Legislature at any time in accordance with Article 6 Section 5 of the Kansas Constitution.

TERMS OF THE AGREEMENT

Now, therefore, it is agreed by and between the parties as follows:

1. The credit earned in the I-PSS Pathway may be granted through the WATC joint agreement. The awarding of such credit is contingent upon the joint cooperation of the specific program by the two institutions.
2. USD 265 will provide the courses listed under the secondary courses portion of the Articulated Coursework section.
3. WATC will provide the courses under post-secondary portion of the Articulated Coursework section.
4. Any courses articulated for Advanced Placement Credit are outlined in the section titled, Articulated Coursework.
5. Both parties may advertise and will jointly advise the students that this option is available to them.
6. This agreement may be revised/modified by mutual agreement as needed, or in the event of cancellation, discontinuance or disapproval of any course or program by the Kansas State Department of Education or the Kansas Board of Regents.

ADVANCED PLACEMENT GUIDELINES

1. According to WATC policy 5-27 Credit for Prior Learning, credit will be posted on the WATC transcript as Advanced Placement Credit with a grade of on the WATC official transcript.
2. The WATC course name will appear on the WATC official transcript.
3. Credit it will only be awarded if the secondary student earns a final grade of "C" or better.
4. Credit will be posted after 15 additional hours of WATC credit hours have been successfully completed.
5. No fee will be assessed for the credit.
6. Credits may not apply toward the WATC residency requirement.
7. A maximum of 12 credit hours will be accepted for Advanced Placement Credit,

ARTICULATED COURSEWORK

Secondary Course Number	Secondary Course Name	Post-secondary Course Number	Post-secondary Course Name	Credit Hours
	Intro to I-PSS	CRJ 101	Introduction to Criminal Justice	3
	Law Enforcement I	CRJ 125	Law Enforcement Operations & Procedure	3
44201	Law Enforcement II	CRJ 130	Criminal Procedures	3
44224	Forensic Science Com rehensive	CRJ 105	Criminal Investigation	3

In witness whereof, the parties accept and approve this agreement.

To Whom It May Concern:

It is my distinct honor to write this letter in support for USD 265-Eisenhower High School's application for the Advanced CTE Excellence in Action Award. Over the past four years, I have observed and worked closely with this high school to advance your goal of making students lifelong learners.

The LPSS Industry Advocate Team that supports your Law Enforcement Pathway is one of the largest and most involved IAT in the State of Kansas. Your school has reached out beyond your district borders to serve as a guide for other high school programs around the state, showing them how to create and grow a high school pathway.

Your school has also set records for dual credit enrollment, ensuring that students are taking advantage of the college credit opportunities within your high school. Your high school has collaborated with industry to create resources for the classroom that provide real world knowledge on criminal justice for your student's development. The high school's involvement in SkillsUSA resulted in having the 2017 High School Criminal Justice Gold Medal winner and the 2017 High School Crime Scene Investigations Gold Medal Team winner for the state of Kansas.

The personal drive of the Eisenhower High School pathway instructors to gather knowledge and skills to pass along to their students is exceptional. Hosting training events for area schools in this pathway, reaching out to college instructors for support and collaboration, and attending workshops and training sessions sets the bar high for others to follow.

Your dedication is an inspiration to others, and the CTE world is honored to have you in their ranks. I am assured that there is none more deserving of this Excellence in Action Award than the Eisenhower High School Law Enforcement Pathway.

Sincerely,

Matthew Vogt
Program Director - Police Science

Wichita City Police Department

To: Whom It May Concern
From: Mary Mattingly, Patrol Lieutenant
Subject: Letter of Support
Date: November 12, 2017

I have had the privilege of being the chair of the LPSS Community Advisory Committee for the USD #265 Goddard School District supporting the Eisenhower High School Law Enforcement CTE Career Pathway. This is an exceptional program, which provides the opportunity for our youth to explore a career field in law enforcement in either criminal justice or crime scene investigations and forensic analysis. The dedication of the Eisenhower High School faculty members who instruct the students in this dual college credit course is truly outstanding. I fully support their efforts to achieve this high honor.

The *Law, Public Safety, Corrections & Security Career Track* helps students prepare for a career in law enforcement, as a forensic or emergency services, technician or homeland security technical and support services.

An Articulated Agreement between the Goddard School District and Wichita Area Technical College means that students can gain **FREE** college credit for their involvement with the Career Track for Education. See your high school counselor for details

Your guide to careers in Law, Public Safety, Health, and Forensic Science professions.

Secure your future and jump start your college education by "trying on" a career field that interests you. This career path includes these classes:

- Introduction to Law
- Law Enforcement I & II
- Health and Public Safety
- Forensic Science

Intro to Law Law Enforcement I & II

**Sirens scream..
Bombs explode. Bullets fly.**

This is the image that many people have of careers in Law, Public Safety, and Security. The truth is that those things do happen occasionally, but mostly careers in this cluster don't involve constant danger. Instead, they concern the important daily duties of protecting and serving the public. During these classes you will discover the ways people and property are kept safe through in-class speakers, investigations, and field trips to such places as law enforcement sites, local prisons, and courts of law to see first hand what it takes to be involved with the Law.

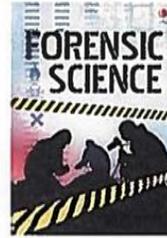

Health & Safety

This class will have students explore the

beginning stages of employment in emergency, fire, & EMT/First Responder Services. You will learn skills to become First Responders in an emergency situation by receiving certification in CPR/First Aid .

The course will give you the ability to take proper precautions while handling life threatening situations. You will also discuss the National Incident Management System(NIMS) and the Incident Command System (ICS), working with in local and state laws & the forms needed for emergency situations.

Biology & Geometry are required prerequisites to enroll in this course.

The dual credit course (3 hr) is designed to give students an overview

of Forensic Science and to take on the role of a forensic technician to see how crime scenes are investigated through hands-on class activities.

Students will complete Training and Application labs in areas such as Fingerprinting , Trace Evidence, DNA Electrophoresis, Entomology, Crime Scene Analysis, Drugs & Toxicology, Bullet Trajectory, Impressions, Post Mortem and Autopsy, Chain of Custody for evidence, Ballistics, Tool Marks, Forensic Anthropology, Blood Spatter, Counterfeit and Fraudulent Documents, Identify Theft, and more.
